C/K Pickup & Crew-Cab

ORDERING INFORMATION

Focus Vehicle—C1500 Regular-Cab Long-Box Pickup with Silverado trim. This vehicle is engineered to out-perform driver expectations. When equipped with PEG 3 (P1A3), this model represents an excellent opportunity for high-volume C/K Pickup sales at your dealership.

Feature Vehicle—K1500 Extended-Cab Short-Box with Silverado trim (detailed on the following sheet).

■ Performance

■ **4.3 Liter EFI V6 Engine**—provides 165 hp/235 lb.-ft. of torque, towing capacity up to 5,000 lbs. for properly equipped C1500 with this standard engine and balance shaft enhances engine smoothness ■ **Five-Speed Manual Transmission**—overdrive gear is designed to lower engine speed when cruising, contributing to higher fuel efficiency and reduced engine wear ■ **Independent Front Suspension**—pivoted upper and lower control arms reduce deflection, allowing front wheels to travel straight up and down. Keeps tires in firm contact with the road providing smooth, stable ride and good directional control

■ Options

■ **Choice of Engines**—the C/K lineup includes six powerplants for widely varying needs...from the fuel-efficient 4.3 Liter V6 all the way up to the workhorse 7.4 Liter V8 which can tow up to 13,000 lbs. in a properly equipped C3500 Crew-Cab ■ **Manual and Automatic Transmissions**—optional four-speed electronically controlled automatic transmission offers a smooth shifting alternative ■ **Extra Protection**—outfit C/K for a multitude of work and recreational activities with options like a full bedliner which protects cargo bed, sidewalls, inside tailgate panel, and provides insulation from road noise

■ Work Credentials

■ **Steel Ladder-Type Frame with Drop Center Design**—reduced step-in height for easy entry/exit, high ground clearance for off-road driving ■ **Double-Wall Cargo Box/Tailgate**—keeps damage on the inside from showing on the outside, helps to keep the truck looking new ■ **Two-Tier Loading**—pockets in upper cargo box wall allow for second loading level above wheel wells for cargo-carrying versatility

■ Easy

—TO OWN ■ **Scotchgard™ Fabric Protector**—on cloth seats, door panels, and carpet, resists stains for easy cleanup ■ **Solar-Ray Tinted Glass**—screens out much of the sun's ultraviolet and infrared rays to help keep interior cool, helps reduce fading and deterioration of interior fabrics/trim

—ON THE MIND ■ **Rear-Wheel Anti-Lock Brake System**—reduces rear wheel lockup, contributing to controlled straight line stopping ■ **Center High-Mounted Stop Lamp**—highly visible signal helps prevent rear end collisions (features integral Cargo Lamp) ■ **Roadside Assistance**—24-hour service assistance via Chevrolet's toll-free "800" number. Fast response for towing, repairs, and other services

■ Reliability/Durability

■ **Base Coat/Clear Coat Paint**—high gloss shine, long-lasting exterior finish resists fading ■ **Anti-Chip Coating**—on lower body surfaces, helps prevent damage to finish ■ **Bumper-to-Bumper Plus Warranty**—3-year/36,000-mile, no-deductible limited warranty, includes parts, labor, 6-year/100,000-mile body sheet metal rust-through protection, 5-year/50,000-mile emissions control system coverage. (Tires covered by their manufacturer.) ■ **Chevrolet Diesel Engine Warranty**—5-year/100,000-mile warranty, \$100 deductible after 3 years/36,000 miles

C/K Pickup & Crew-Cab

'94 Product Positioning

The full-size, rugged C/K Pickups are built to last, and their high resale value proves it. Buyers can equip this pickup to meet any purpose, from a hard working cargo hauler to a high-style off-road weekend escape machine. Standard rear wheel anti-lock brakes, anti-chip paint protection, and Solar-Ray tinted glass are just a few high-value features you can expect from Chevrolet.

Chevy C/K Pickup and Crew-Cab adds a newly revised grille to its rugged construction and attractive styling for 1994.

C/K's broad product lineup and several choices of powertrains, trim levels and payload/towing capabilities are sure to meet the needs of many personal and commercial uses.

Feature Vehicle:

**K1500 Fleetside
Extended-Cab Short-Box
Silverado**

This year's C/K Pickup Feature Vehicle is the K1500 Fleetside Extended-Cab Short-Box Silverado Pickup with the YE9 Package. Built for tough use and dependability, this C/K model also offers a comfortable passenger cab. Silverado trim enhances the interior appeal for an attractive, versatile truck.

Focus Vehicle:

**C1500 Fleetside
Regular-Cab
Long-Box Pickup
with Silverado Trim
Ordering
Recommendations**

The recommended C1500 Fleetside Regular-Cab Long-Box Silverado content, based on national sales volume, is listed below to assist your dealership in ordering.

C1500 Fleetside Regular-Cab Long-Box Pickup with Silverado Trim with Preferred Equipment Group 3 (P1A3)

- Silverado Decor (YE9)
- Air Conditioning
- Lighting: Auxiliary
- Mirrors: Below-Eye-Line Stainless Steel
- AM/FM Stereo Radio with Digital Clock
- Headlamps: Dual Composite Halogen

NOTE: Model, PEG and optional content may vary in your locality. Use the Retail Sales Analysis (RSA) to verify or select your dealership's C/K Pickup Focus Vehicle content.

Deletions

- The copper-brass radiator has been replaced by a **new aluminum radiator** on 5.7L, 7.4L gasoline and 6.5L diesel engines. The aluminum design provides additional engine cooling and increased durability.
- The **6.5 Liter Naturally Aspirated V8 Diesel** in both Light Duty and Heavy Duty versions replaces the 6.2 Liter V8 Diesel offered in 1993. The new powerplant offers additional power, reliability, and durability.
- Two exterior colors have been dropped for this year: Beige Metallic and Slate Metallic. New exterior colors are Light Autumnwood Metallic and Dark Autumnwood Metallic. C/K Crew-Cab no longer comes in Light Quasar Blue Metallic, Sand Beige Metallic or Slate Metallic, but has added Atlantic Blue Metallic, Light Autumnwood Metallic and Dark Autumnwood Metallic.

Additional Information on Significant Features

- The **Silverado Package** is now available on the C3500 HD model. This brings enhanced style and comfort to this hard working member of the Chevy truck family. Uplevel seats and other Silverado interior features like color-keyed carpeting, full-cloth headliner and electronically tuned AM/FM stereo radio make driving this work truck a pleasure.
- The C/K Pickup's **Rear-Wheel Anti-Lock Brakes** reduce chance of rear-wheel lockup, thereby helping to increase steering control and reduce stopping distances on most surfaces. When speed sensors determine rear-wheel speed changes, the Electronic Control Unit activates the anti-lock system which modulates brake fluid pressure to the rear wheels.
- The **4-Speed Electronically Controlled Transmission** is available on the C/K Pickup line. Electronic controls provide consistent, smooth shifts in all weather conditions, regardless of the load. The overdrive gear is designed to reduce engine speed when cruising so less fuel is used, and engine wear reduced.

POWER TEAMS**Standard Engine**

RPO LB4 4.3 Liter (262 Cu In) V6 with Electronic Fuel Injection (EFI)

Standard Transmission

RPO MM5 5-Speed Manual

RPO MT8 5-Speed Manual, H.D. w/C6P 8600 GVWR

STANDARD EQUIPMENT SUMMARY**EXTERIOR**

Air Dam: Black (7200 GVW only)
 Battery: 600 Cold Cranking Amps
 Brakes: Power assisted front disc, rear drum. Rear wheel anti-lock
 Bumper: Chrome front
 Grille: Molded painted argent
 Headlamps: Single rectangular halogen
 Mirrors: RH and LH below-eye-line, painted black
 Nameplate: Cheyenne
 Radiator, Heavy Duty
 Tires:
 7200 GVW - LT225/75R16D All Seasons Steel Belted Radial Ply BW
 K20753 - LT245/75R16C
 8600 GVW - LT245/75R16E All Seasons Steel Belted Radial Ply BW
 Tow Hooks: Two front (K2500 models)
 Wheels: Silver painted with black hub ornament
 Wheel Opening Flares: K2500 models w/8600 GVW
 Windshield Wipers: Intermittent

INTERIOR

Cigarette Lighter
 Cupholders, Mounted Under Dash with Bench or 60/40 Seat(s). Located in Center Console with Bucket Seats
 Door Guard Beams: Side
 Dome Lamp: With switch in LH and RH door jamb
 Floor Covering: Color-keyed rubber mat
 Gages: Engine temperature, fuel level, odometer, oil pressure, speedometer, telltale lights, trip odometer and voltmeter
 Glass: Tinted, Solar-Ray, all windows
 Glove Box: Latched door and beverage holder
 Headliner: Color-keyed cloth with matching retainer molding
 Heater: Deluxe heater with windshield and side window defoggers
 Mirror: 10-inch rearview
 Radio: Electronically-tuned AM radio with fixed mast antenna
 Scotchgard Fabric Protector on cloth trim and door panels
 Seats:
Regular Cab: 3-passenger all-vinyl trim front bench seat with head restraints and folding backrest. Optional bucket seats also include console
Extended Cab: 60/40 Vinyl reclining split bench seats with driver and passenger easy entry feature
 Steering Wheel: Custom urethane 4-spoke
 Stop Lamp: Center-mounted with cargo area lamp
 Sunshades: Color-keyed cloth RH and LH padded

OPTIONAL UPLEVEL DECOR
SILVERADO DECOR LEVEL (RPO YE9)

The following equipment is in addition to or replacing items included in the Cheyenne decor

EXTERIOR

Bumper: Chrome front bumper includes a black rub strip with bright trim
Grille: Deluxe front appearance package with dark argent grille and bright trim
Headlamps: Dual composite halogen
Horn: Dual low and high note electric
Moldings: Black body side moldings with bright trim and bright wheel opening moldings (K2500 models w/8600 GVW include body side moldings only)
Nameplate: Silverado
Wheels: Rally wheel trim
Windows: Swing out quarter (C-K20*53 Only)

INTERIOR

Floor Covering: Color-keyed carpeting
Floor Mats: Front removable color-keyed rubber (C-K20*53 also includes rear mat)
Radio: Electronically tuned AM/FM stereo w/seek-scan and digital clock
Seats: Regular Cab: 3-passenger with choice of custom vinyl or custom cloth front bench seat with folding backrest. Optional bucket seats include console
Extended Cab: Vinyl reclining 60/40 split bench seat with easy entry feature
Steering Wheel, Sport
Storage Tray: Full width strap behind seat on floor
Sunshades: Cloth covered with storage strap on LH unit and visor mirror on RH unit

C/K PICKUP INTRODUCTION

C/K PICKUP

The 1994 C/K Pickups are available in two trim levels: the "Cheyenne" (standard) and the "Silverado" (uplevel). Chevrolet will continue to offer its Work Truck model but will discontinue the 454 SS.

Changes on the C/K Pickup for 1994 include:

- 4.3L V6 Engine Enhancements
 - 4.3L V6 Engine Receives a Balance Shaft for Smoother Performance
 - 5.7L V8 Engine Enhancements
 - 6.5L V8 Diesel Engine with Natural Aspiration
 - 6.5L V8 Turbo Diesel Engine
 - 7.4L V8 Engine Enhancements
 - 7.4L V8 Engine available as a Regular Production Option for Conversion to Natural Gas in certain Heavy Duty applications
 - Redesigned Grilles
 - Sport Pickup Grille
 - Aluminum Radiators Replace Copper-Brass Radiators with 5.7L V8, 7.4L V8 and 6.5L V8 Diesel Engines
 - Center High-Mounted Stop Lamp to Meet FMVSS 108
 - Cruise Control Improvements
 - Enhanced Air Cleaner with Gasoline Engines
 - Two New Exterior Colors (Three on Crew Cab)
 - Improved Easy-Entry Seats on Extended Cab Models
 - Optional Solar-Ray® Deep-Tinted Glass
 - New Spark Plug Wires on the 5.7L V8 Engine
 - Electronic Exhaust Gas Recirculation (EGR) Solenoid Valve for Better Drivability and Reduced Exhaust Emissions
 - Parking Brake Pedal Improvements
 - R134a Refrigerant replaces the current R12 for an environmentally safe air conditioner
 - Revised Front Axle Halfshaft Boot on 4x4 Models
 - Side Door Guard Beams to Comply with FMVSS 214
 - Smoother Shifting 4L80-E Transmission with 5.7L V8 and 7.4L V8 Engines
 - Starter Motor with 5.7L V8 and 7.4L V8 Engines
 - Tire/Vehicle Maximum Speed Limiting on Certain Models
 - Underhood/Underbody Corrosion Protection Upgrade with the addition of coatings to many underbody components
-

MODEL SELECTION SUMMARY

Use the chart below to choose the model that fits your customer's needs. Note that the Maximum Payload is based on curb weight. Also, the Maximum Gross Trailer Weight is based on vehicles that are properly equipped. See your 1994 Chevrolet Truck Order Guide for details.

TRIM LEVELS

Chevrolet offers C/K Pickups in two primary trim levels — “Cheyenne” and “Silverado.” The following chart details major standard features. See your 1994 Chevrolet Truck Order Guide for more details, including information on the WT 1500 and Sport Pickup.

CHASSIS EQUIPMENT			
KEY: ■ = STANDARD, — = NOT INCLUDED		CHEYENNE (STANDARD)	SILVERADO (YE9)
BRAKES	Power-assisted, front disc, rear drum; Self-adjusting. Includes rear-wheel anti-lock system that operates in 2-wheel drive only.	■	■
EXHAUST	Single.	■	■
FRAME	All-welded ladder-type, channel design and boxed front-end section. Section modulus (cu. in.): Reg. Cabs — 2.66 on C/K 1500 and C/K 2500 (2WD), 3.27 on C/K 1500 and C/K 2500 (4WD), 5.26 on C/K 2500 /C6P and C/K3500 (2WD), 5.25 on C/K2500 w/C6P and C/K3500 (4WD), Ext. Cabs — 3.37 on C/K1500 and C/K2500 (2WD), 4.06 on C/K 1500 and C/K2500 (4WD), 6.06 on C/K 2500 wC6P and C/K3500. Crew Cab — 7.49 on all models.	■	■
FUEL TANK	25.0 gallon (approx.) capacity on C/K 10703/53 and C/K 20753 models. 34.0 gallon (approx.) capacity on all other models.	■	■
REAR AXLE	Hypoid semi-floating on C/K 1500 and 2500. Full-floating on C/K 2500/C6P w/L19 or L65 and C/K3500.	■	■
SHOCK ABSORBERS	25 mm: C/K 1500 front and rear; 32 mm: Front on C/K2500 at 7200 lbs. GVWR and C/K3500. Rear on C/K2500 and 3500; 32 mm: Front on C/K2500 at 8600 lbs. GVWR and Crew Cab.	■	■
STABILIZER BAR	4x2: Front 1.25 inch; 4x4: Front 1.18 inch.	■	■
STEERING	Integral power.	■	■
SUSPENSION, FRONT	4x2: Independent with computer-selected coil springs. 4x4: Independent with computer-selected torsion springs.	■	■
SUSPENSION, REAR	C/K1500 and 2500: Semi-elliptic two-stage multi-leaf springs. C/K3500: Semi-elliptic two-stage multi-leaf springs main/auxiliary.	■	■
TOW HOOKS	Two front on 4x4s.	■	■

PREFERRED EQUIPMENT GROUPS

Preferred Equipment Groups (PEGs) are convenient option packages that can save your customers money. They would pay appreciably more by buying all the options in a Preferred Equipment Group as individual options. (Savings based on a comparison of Manufacturer's Suggested Retail Price of option packages versus MSRP of individual options purchased separately.) See your 1994 Chevrolet Truck Order Guide and Vehicle Price Schedule for specific information and prices.

OPTIONS

These options can be ordered individually in addition to the Preferred Equipment Groups if not already included. See your 1994 Chevrolet Truck Order Guide for specific availability and restrictions. The Option Code is listed in **bold type**.

Air Conditioning **C60**
 Appearance Package: Chrome Grille,
 Composite Headlamps & Dual
 Horns (Incl. w/Silverado Decor and
 BYP Sport Package) **V22**
 Axles, Rear
 3.08 **GU4**

1994 GENERAL MOTORS TRUCKS

Consumer Information Truck - Camper Loading

CONSUMER INFORMATION REGULATION 575.103 issued by the National Highway Traffic Safety Administration requires manufacturers of trucks capable of accommodating slide-in camper bodies to provide information concerning proper load and proper load distribution in truck-camper applications.

This Consumer Information booklet is designed to provide basic information relating to load capabilities of 1994 General Motors truck models which are adaptable to slide-in camper applications. Information contained herein is applicable to the truck buyer who already owns a 1994 General Motors truck or to a prospective truck purchaser.

The Regulation also provides that proper truck-camper loading information is to be maintained in truck dealerships and be made available to all prospects on request. This booklet relates to the 1994 General Motors truck models recommended for slide-in camper applications and is to be used as a consumer information brochure.

Product specifications or data contained herein may change periodically. When a revision of this booklet is supplied to truck dealers, it is the dealers' responsibility to make the revised information available to the public.

Chevrolet's and GMC's 1988 and newer Full-Size C/K Pickups feature a styling that is more aerodynamic than prior models. Aftermarket manufacturers offer many products, such as slide-in campers, camper shells, and bedliners, designed to fit on the new pickups. However, some products designed for use on Chevrolet Full-Size Pickups, built prior to the 1988 model year or R-V models through the 1991 model year, may not fit in the bed of this vehicle. Please confirm the compatibility of any aftermarket product you intend to install on your new truck by consulting the product manufacturer.

Chevrolet's and GMC's 1994 S/T Series Pickups feature new styling that is more aerodynamic than models from previous years. Some aftermarket items designed for 1993 and earlier S/T Series Pickups may not fit in the bed of this new vehicle. Please consult the product manufacturer for compatibility prior to purchase.

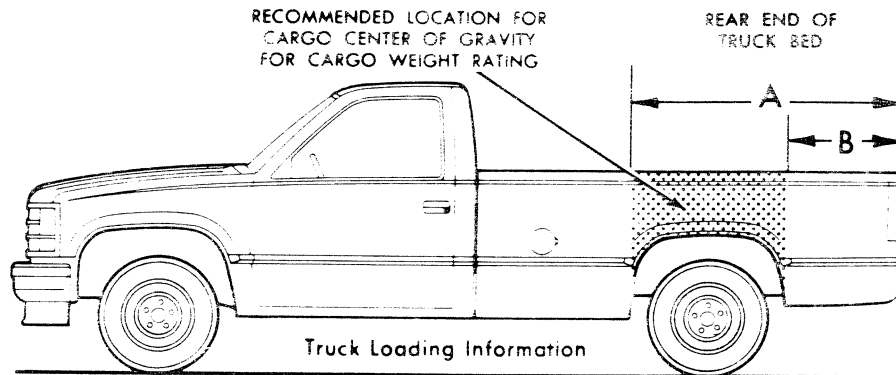

All illustrations and specifications contained in this literature are based on the latest product information available at the time of publication approval. The right is reserved to make changes at any time in prices, colors, materials, equipment, specifications and models, and also to discontinue models.

TRUCK - CAMPER LOADING

Consumer Information Regulation 575.103 requires manufacturers of trucks capable of accommodating slide-in campers to specify the vehicles' Cargo Weight Rating (CWR) and the longitudinal limits within which the center of gravity for the cargo weight rating should be located.

Cargo Weight Rating (CWR)—The cargo weight rating of a vehicle means the value specified by the vehicle manufacturer as the cargo-carrying capacity of a vehicle in pounds, exclusive of (minus) the weight of occupants, computed as 150 pounds times the number of designated seating positions.

Longitudinal Center of Gravity (CG) Zone for CWR—The forward limit of the recommended CG Zone is determined by the application of dimension "A" measured in inches from the rear of the truck bed. The rearward limit of the recommended CG Zone is established by application of dimension "B", also measured in inches from the rear of the truck bed. The recommended CG Zone lies between these points.

Model _____ Calculated
Cargo Weight Rating _____

Dimension A _____ Dimension B _____

Limitations on Recommended CG Zones

FORWARD LIMIT

- (1) Must not extend beyond the inside surface of the pickup box.
- (2) Must not exceed the front gross axle weight rating (GAWR).

REARWARD LIMIT

- (1) Must be no farther rearward than the inside surface of the pickup box.
- (2) Must not exceed the gross axle weight rating (GAWR) of the rear axle.
- (3) Must not exceed rear axle load limits below:

Series	Rear Axle Load Limits (% of GVWR)
S/T-10/15	62%
C/K 1500	60%
C/K 2500	65%
C/K 2500/C6P, C/K 3500	70%

Vehicle CG Identification—All General Motors Corporation trucks that may be suitable for carrying a slide-in camper incorporate a Truck-Camper Loading information label located on the glove box floor on C/K and S/T-10/15 models. The vehicle identification number (VIN), the as-manufactured cargo weight rating (CWR) of that vehicle plus the CG limits of dimension "A" and "B" for that vehicle in inches are included.

Vehicle and Truck-Camper Loading are also discussed at length in the Vehicle Owner's Manual.

TRUCK - CAMPER LOADING

Loading Instructions—When the truck is used to carry a slide-in camper, the total cargo load of the truck consists of the manufacturer's camper weight figure, the weight of installed additional camper equipment not included in the camper manufacturer's weight figure, the weight of camper cargo, and the weight of passengers in the camper. The total cargo load should not exceed the truck's cargo weight rating (CWR) and the camper's center of gravity should fall within the truck's recommended center of gravity zone when installed.

Any accessories or other equipment added to this vehicle, after final date of manufacture, must be weighed or have their weight determined, and the weight deducted from the prescribed cargo weight rating (CWR) of this vehicle. This may decrease the permissible longitudinal zone of the center of gravity for this vehicle.

The longitudinal center of gravity zone has been determined for the full cargo weight rating of this truck. If a slide-in camper has a total weight less than the cargo weight rating (CWR), the permissible longitudinal zone of the center of gravity may be larger. However, individual axle loads should not exceed either of the gross axle weight ratings (GAWR).

Secure loose items to prevent weight shifts that could affect the balance of your vehicle. When the truck camper is loaded, drive to a scale and weigh on the front and on the rear separately to determine the axle loads. Individual axle loads should not exceed either of the gross axle weight ratings (GAWR). The total of the axle loads should not exceed the gross vehicle weight rating (GVWR). These ratings are given on the vehicle identification plate and on the vehicle certification label which are located on the left side of the vehicle, normally on the door latch post or door edge next to the driver. If weight ratings are exceeded, move or remove items to bring all weights below the ratings.

CAUTION: The longitudinal center of gravity is only one of the many factors which may affect the overall performance of a vehicle, including handling, steering and braking. The cargo load should be distributed on both sides of the centerline as equally as possible. The recommended longitudinal limits for the camper's center of gravity are based on the assumption that the vehicle will be operated with reasonable prudence in light of all of the existing conditions. Failure to do so could result in unsatisfactory vehicle performance and could make the vehicle unsafe to operate.

In this connection, refer to any recommendations by the slide-in camper manufacturer regarding installation and loading of the camper.

TRUCK – CAMPER LOADING

DEFINITION OF TERMS

For the purposes of calculating Truck-Camper Loading in this book, listed below are some common terms and abbreviations:

Cargo Weight Rating (CWR)—means the value specified by the vehicle manufacturer as the cargo-carrying capacity of a vehicle in pounds, exclusive of (minus) the weight of occupants, computed as 150 pounds times the number of designated seating positions.

Center of Gravity (CG)—Point where the mass of a body is concentrated and if suspended at that point would balance front and rear.

Curb Weight – Weight of a vehicle without driver, passengers or cargo but including maximum capacity of fuel, oil, coolant and other items of standard equipment.

Dimension A & B—Front and rear limit of Center of Gravity (CG) zone.

Gross Vehicle Weight Rating or "GVWR" means the value specified by the manufacturer as the loaded weight of a single vehicle.

Gross Axle Weight Rating or "GAWR" means the value specified by the vehicle manufacturer as the load carrying capacity of a single axle system measured at the tire-ground interfaces.

Model Weight—Weight of the vehicle with all items of standard equipment, 150 pounds per passenger in each designated seating position and maximum capacity of fuel, oil and coolant.

Payload Rating—is the maximum allowable load (including the weight of the driver and all occupants) that the vehicle can carry based on all factory-installed equipment on the vehicle.

RPO—Regular Production Option.

Slide-in Camper—means a camper having a roof, floor, and sides, designed to be mounted on and removable from the cargo area of a truck by the user.

Weight Distribution—The amount of a vehicle's weight that rests on each axle.

Wheelbase (WB)—The distance from the centerline of the front axle to the centerline of the rear axle.

LIMITATIONS

The following General Motors truck models are not recommended for slide-in camper applications:

- Any pickup model with a cargo weight rating (CWR) of less than 500 lbs. A statement to this effect is imprinted on the Truck-Camper Loading information label which states whether that vehicle is recommended for use with a slide-in camper.
- S-10/15 (2WD) Pickup with 4200 lb. GVWR.
- T-10/15 (4x4) Pickup with 4650 lb. GVWR.
- S/T-10/15 Pickup with 108.3" WB.
- S/T-10/15 Extended Cab Pickup.

Note: C/K 1500 Pickups should not be used for larger, cab-over type slide-in campers.

TRUCK – CAMPER LOADING

S/T PICKUPS, C/K PICKUPS, EXTENDED/CLUB AND CREW CAB PICKUPS

INSTRUCTIONS FOR PROSPECTIVE TRUCK PURCHASERS **VEHICLE SELECTION AND WEIGHT ANALYSIS**

1. For S/T-10/15 Models.

You must order S/T 10803 (117.9" WB) model with one of the following GVWR Ratings:

S10803 (2WD) 4600 lb. GVWR

S10803 (2WD) 4900 lb. GVWR

T10803 (4x4) 5150 lb. GVWR

if you intend to use a slide-in camper on your S/T-10/15 Pickup. Record the model on page 3. Record the model GVWR, front GAWR, and rear GAWR on page 7. These ratings can be found in the S/T-10/15 section of the General Motors Light-Duty Truck Data Book or Chevrolet Light-Duty Technical Guide on the Specifications pages. This information is also available in the Chevrolet Spec Manager computer program.

For C/K Models.

From the model selection pages of the C/K Pickup section of the GMC Light-Duty Truck Data Book, Chevrolet Light-Duty Technical Guide or the Chevrolet Spec Manager System, select the pickup model you desire. Record this information on page 3. Refer to the Specification section for the selected model. Select the GVWR you require and note any minimum tire size and chassis equipment requirements for that GVWR. (To approximate the GVWR you require, add your loaded camper weight to the vehicle curb weight plus the occupants weight at 150 lbs. per designated seating position.) Record this GVWR and the Gross Axle Weight Rating (GAWR), Front and Rear (from the Specifications section), on line 1 of the camper loading worksheet, page 7.

2. Record the front and rear curb weights of your selected vehicle on line 2, page 7.
3. Record the front and rear passenger weights on line 3, page 7.
4. List all factory-installed options you desire, including any options required by your selected GVWR, with their front and rear weights on the Pickup camper loading worksheet on page 7.
5. Total the front and rear weights of vehicle model and options to arrive at the total front and rear weight of the vehicle. Follow the directions on page 7, lines 5 through 5C to arrive at the adjusted total vehicle weight.
6. Subtract the adjusted total vehicle weight from the GVWR to arrive at the cargo weight rating (CWR) of your truck.* Record this information on page 3.
7. Proceed to page 11 and calculate the center of gravity location limits using front and rear GAWRs, cargo weight rating (CWR), and front and rear weight of truck as determined above. Record this information on page 3.

*The addition of any dealer-installed or other accessories will reduce the cargo-carrying capacity by the weight of the equipment installed.

**TRUCK-CAMPER LOADING

TRUCK – CAMPER LOADING

CALCULATIONS TO DETERMINE FORWARD (A) AND REARWARD (B) LOCATION OF CENTER OF GRAVITY FOR CARGO WEIGHT RATING

Calculations for Dimension A

$$A = \left\{ \frac{\text{Front GAWR} - 1.05 \times \text{Front Weight of Truck}}{\text{Cargo Weight Rating}} \right\} \times WB + C$$

Enter Front GAWR

Subtract Front Weight of Truck x 1.05 - ()

Answer

Divide Answer by Cargo Weight Rating (CWR) ÷

Answer

Multiply Answer by Wheelbase x

(See Chart on Page 10)

Answer

Add C Dimension to Answer + C

(See Chart on Page 10)

Dimension A =

Note: If "A" is greater than pickup box length, use box length for "A" dimension.

Calculations for Dimension B

$$B = \left\{ 1 - \frac{\text{Rear GAWR} - 1.1 \times \text{Rear Weight of Truck}}{\text{Cargo Weight Rating}} \right\} \times WB + C$$

Enter Rear GAWR

Subtract Rear Weight of Truck x 1.1 - ()

Answer

Divide Answer by Cargo Weight Rating (CWR) ÷

Answer

Subtract Answer from 1.000 - ()

Multiply Answer by Wheelbase x

Answer

Add C Dimension to Answer + C

Dimension B =

Note: If "B" dimension is negative, use 0 (zero) for "B" dimension.

If "B" dimension is greater than "A" dimension, camper usage is not recommended at the Calculated Cargo Weight Rating. Camper usage may be possible for a lighter camper. Substitute known specific camper weight (less than Cargo Weight Rating) for Cargo Weight Rating in calculations above to determine "A" to "B" range for that specific camper.

Record dimension A and B on page 3.

*From page 7 line 4a.
