### Key Value Features

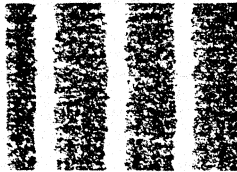

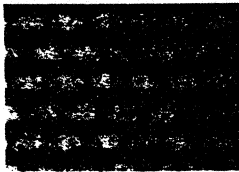

- ▶ Standard 4.3 Liter V6 engine with Electronic Fuel Injection and new 4-speed electronically controlled automatic transmission with overdrive.

- ▶ The Extended-Body model provides 10 inches more depth in cargo space behind the third-row bench seat than a Regular-Body Astro, for a total cargo area of 41.3 cu. ft.
- ▶ Up to 170.4 cu. ft. of cargo space in the Extended-Body Passenger Van, with center-row and rear-row seats removed, offering exceptional versatility.
- ▶ Self-aligning steering wheel is designed to automatically align with driver's body in the event of a frontal collision to help reduce chest impact and injury.

## Astro Passenger Van

### Popular Colors

Listed below are the most popular Astro Passenger Van colors, nationally, based on 1992 Model Year production volumes. NOTE: These colors are for reference only. Use RSA to identify the top-selling colors, by model, in your area.

COLOR	PERCENT (%)
10 — Ivory White	27
34 — Light Teal Met.	10
75 — Deep Red Met.	9

NOTE: There are three new Astro colors for '93:  
20 — Light Quasar Blue Met.  
39 — Indigo Blue Met.  
80 — Med. Quasar Blue Met.  
Also, 36 — Teal Blue, from '92 LT model, is now available on all Astros.

### Positioning for '93

Astro Passenger Van has a special niche in the mid-size van market. This vehicle is dependable, tough and long-lasting. It is more truck-like and has more combined capacity for people and trailer-towing than any other mid-size passenger van (based on '92 data). Astro buyers are primarily married couples with school-age children, and many of these families take trailering vacations.

Better educated than the average Chevy buyer, Astro buyers more often live in metropolitan settings. Automotive safety is especially important to them. Safety equipment such as four-wheel anti-lock brakes (ABS) and the self-aligning steering wheel are clear product advantages, as is the availability of All-Wheel-Drive models.

### Ordering Recommendations

#### FEATURE AND FOCUS VEHICLES

The Astro Passenger Van Feature vehicle for 1993 is the Extended-Body All-Wheel-Drive model with LT decor. It is the vehicle Chevrolet plans to highlight in advertising, merchandising, show and display activities. The Astro Extended-Body model with LT decor combines the load space and luxury many buyers want. Vehicle safety is also important, and features like All-Wheel Drive, ABS and self-aligning steering wheel make this passenger van especially appealing.

The Focus vehicle for 1993 is the Regular-Body 2WD model with standard CS decor and additional appearance options and equipment. This model represents the best opportunities for incremental sales in '93. The 2WD Extended-Body Astro appeals to both personal use and recreational buyers. It offers attractive styling, large seating capacity, many convenience features, a 5500-lb. towing capacity and the strong performance of its 4.3 Liter V6 — all at a great price!

NOTE: The Astro Passenger Van Focus vehicle may vary in your locality. You can verify or select your dealership's Astro Focus vehicles with Retail Sales Analysis (RSA).

#### FOCUS PLANNING WITH RETAIL SALES ANALYSIS

Economic influences, fuel costs, seasonal changes and many other variable factors can influence van customers. During the model year, you can "take the pulse" of buyers as required to determine what models, PEGs and colors are currently being most often chosen. To do this, Chevrolet Motor Division recommends that you utilize Retail Sales Analysis when ordering vehicles for inventory. The RSA is found in the Chevrolet Dealer Information System (DCS/CDIS).

- ▶ Use RSA to identify which Astro models, PEGs and colors are selling at your dealership as well as other dealerships in your MDA, Sales Area, ADI, MSSA, Branch, SMA, and National.
- ▶ You can increase your turnover rate by using RSA to identify top-selling models and PEGs that you can focus on in your advertising and promotions.
- ▶ For more information about RSA, refer to your Chevrolet Dealer Information System (CDIS) Manual or contact your Account Manager - CMC.

### Preferred Equipment Groups

Popular Astro options are combined into convenient Preferred Equipment Groups. These equipment packages are designed to:

- ▶ Appeal to a broad base of your truck customers
- ▶ Make ordering easier
- ▶ Add value to vehicles and enhance trade-in value
- ▶ Enable you to make your inventory and sales strategies more responsive to your competition.

The Astro 2WD with CS decor, Preferred Equipment Group 3 and optional equipment as listed at right includes the features most often sought by Astro buyers and provides an uplevel appearance and trim at an affordable price.

### FOCUS PLANNING WITH RETAIL SALES ANALYSIS

Economic influences, fuel costs, seasonal changes and many other variable factors can influence van customers. During the model year you can "take the pulse" of buyers as required to determine what models, PEGs and colors are currently being most often chosen. To do this, Chevrolet Motor Division recommends that you utilize Retail Sales Analysis when ordering vehicles for inventory. The RSA is found in the Chevrolet Dealer Information System (DCS/CDIS).

- ▶ Use RSA to identify which Astro models, PEGs and colors are selling at your dealership as well as other dealerships in your MDA, Sales Area, ADI, MSSA, Branch, SMA, and National.
- ▶ You can increase your turnover rate by using RSA to identify top-selling models and PEGs that you can focus on in your advertising and promotions.
- ▶ For more information about RSA, refer to your Chevrolet Dealer Information System (CDIS) Manual or contact your Account Manager - CMC.
