MODEL SELECTION SUMMARY

Use the chart below to choose the model that fits your customer's needs. Please note that the Base Payloads shown reflect the maximum allowable weight of cargo that can be carried in a standard model, including occupants. (They are calculated by subtracting curb weight from GVWR.) To calculate payloads for models with optional equipment, please refer to the WEIGHTS section in the back of this book or consult your 1996 GM PROSPEC. Also, the Maximum Trailer Weights shown below are based on vehicles that are properly equipped. See your Chevrolet Truck Order Guide for specific details.

PREFERRED EQUIPMENT GROUPS

Preferred Equipment Groups (PEGs) are convenient option packages that can save your customers money. They would pay appreciably more by buying all the options in a Preferred Equipment Group as individual options. (Savings based on a comparison of Manufacturer's Suggested Retail Price of option packages versus MSRP of individual options purchased separately). See your 1996 Chevrolet Truck Order Guide and Vehicle Price Schedule for specific information and prices.

OPTIONS

These options can be ordered individually in addition to the Preferred Equipment Groups if not already included. See your 1996 Chevrolet Truck Order Guide for specific availability and restrictions. The Option Code is listed in **bold type**.
