- Range Rover.

### Additional Information on Significant Features

- An important addition this year is the standard front-passenger air bag. Since safety is a major consideration among today's buyers, the front-passenger air bag helps position Tahoe more solidly than ever as the leader in the full-size sport utility market segment.
- New 4WD improved turning radius. Maneuverability is important to four-wheel drive aficionados, especially those who are off-road enthusiasts. This new system uses revised components and increased turn angles to make possible a shorter turning radius. Affects all 4WD models.

### Deletions

- Two exterior colors have been deleted for 1997: Atlantic Blue Metallic (#30) and Light Autumnwood Metallic (#55) and have been replaced by two new colors: Medium Opal Blue Metallic (#24) and Medium Beige Mystique Metallic (#65).

(They are calculated by subtracting curb weight from GVWR.) To calculate payloads for models with optional equipment, please refer to the WEIGHTS section in the back of this book or consult your 1997 GM PROSPEC. Also, the Maximum Trailer Weights shown below are based on vehicles that are properly equipped. See your Chevrolet Truck Order Guide for specific details.
