VERSATILE CHEVY ASTRO — THE ONLY MIDSIZE VAN OUT THERE IS AN EVEN BETTER CHOICE FOR '98.

WARREN, Mich. — For 1998, Chevy Astro continues to offer impressive accommodations and versatility, along with improved features that make it even better. The rear-wheel-drive Astro is a favorite with van buyers who need more room and capability than typical front-wheel-drive minivans offer, but don't want the bulk of a full-size van. In fact, for 1998, Astro is the only midsize van out there.

Offered as both a passenger van and a cargo van, the roomy rear-wheel-drive Astro has more cargo and payload capacity and a greater trailer-towing rating than any typical front-wheel-drive minivan. And now Astro, with new security and operating enhancements for '98, is an even better choice.

A new addition on the security front is the Passlock® theft-deterrent system, standard on every 1998 Astro. This system disables the ignition, preventing further starting attempts for ten minutes if an invalid key (or no key) is used.

Astro owners will also enjoy an improvement in driveability for 1998, thanks to an enhanced automatic transmission. New this year is an electronically controlled torque converter clutch for improved efficiency and a two-piece transmission case for increased stiffness, reduced noise and less vibration than in previous years.

For added exterior protection, Astro features an improved clearcoat paint (interim availability) that helps reduce damage from water-spotting, acid rain and environmental etch. Three new exterior colors are offered for 1998: Medium Cadet Blue Metallic, Dark Copper Metallic and Dark Forest Green Metallic. Dark Copper Metallic and Dark Forest Green Metallic are also new cladding colors.

Astro continues to offer a comprehensive list of standard safety features for 1998, such as dual air bags, a 4-wheel anti-lock brake system (ABS) and Daytime Running Lamps (DRL), which make it easier to see Astro during the day. Impressive Vortec power is found under the hood of all models. A Vortec 4300 V6 with Sequential Fuel Injection (SFI) powers Astro, providing a hardworking 190 horsepower and 250 lb.-ft. of torque,

multi-purpose van for daily driving and weekend excursions, and Astro Cargo Van providing a perfect solution for commercial users who require dependability and power along with impressive payload and towing capacities. Other "family members" include the full-size Chevy Van, Chevy Express, Chevy Venture and Chevy Venture Cargo Minivan.

Chevy Astro offers rugged performance, more than ample space and an impressive list of standard features. The 1998 Chevy Astro ... midsize versatility at its best.

WHAT ASTRO IS

With the recent withdrawal of Ford Aerostar, Astro stands alone as the only midsize van,* with more cargo capacity, payload capacity and a higher trailer towing rating than any typical front-wheel-drive minivan can provide.

The rear-wheel-drive Astro is a favorite with van buyers who need more room and capability than typical front-wheel-drive vans offer, but don't want the bulk of a full-size van.

Astro is available in either rear- or All-Wheel Drive, as a passenger van or a cargo van with three trim levels available for the passenger van. Astro also demonstrates its versatility through its impressive cargo hauling and towing capabilities. On the inside, Astro offers as much as 170.4 cubic feet of cargo room — enough room to haul a 4' x 8' sheet of plywood with the rear doors closed.

And, towing is no problem. When properly

equipped, Astro can tow as much as 5,500 pounds. This is due, in part, to its rear-wheel-drive platform, now unique in the midsize van segment.*

Astro takes safety seriously, with a long list of standard safety features, such as driver and front-passenger air bags, Daytime Running Lamps (DRL) and a 4-wheel anti-lock brake system (ABS).

Under the hood is a powerful standard Vortec 4300 V6 SFI engine that produces 190 horsepower and 250 lb.-ft. of torque, giving Astro the power to perform a variety of tasks. And, with extended service intervals, Astro helps make life a little easier.

In keeping with its rugged, hardworking and versatile reputation, Astro is part of the Chevy Truck sponsorship of the U.S. Ski Team and the Sarah Will Woman's Sport Foundation, a group dedicated to providing athletic challenges to people with physical handicaps.

*Excludes other GM vehicles.

Astro Models

- Passenger Van, rear-wheel drive
- Passenger Van, All-Wheel Drive
- Cargo Van, rear-wheel drive
- Cargo Van, All-Wheel Drive.

Three trim levels are available for Astro Passenger Van:

- Astro (with standard trim)
- LS
- LT.

Astro Cargo Van is available only in the standard trim level.

What's New For 1998:

- Enhanced 4-speed electronically-controlled automatic transmission with Overdrive (see page 9)
- Passlock® theft-deterrent system (see page 4)
- An improved clearcoat paint that helps reduce damage caused by water-spotting, acid rain and environmental etch (see page 7)
- Three new exterior colors: Medium Cadet Blue Metallic, Dark Copper Metallic and Dark Forest Green Metallic
- Two new exterior cladding colors: Dark Forest Green Metallic and Dark Copper Metallic (see page 7)
- Medium Gray replaces Gray as an interior color. (see page 6)

THE CHEVY FAMILY OF VANS

Chevrolet offers six distinctly styled vans, the broadest combination of any manufacturer in the industry. These vans provide customers broad options in size, power, economy and utility. Chevy Express, Chevy Van, Astro Passenger and Cargo Van, Chevy Venture and the new-for-'98 Venture Cargo Minivan can be equipped to meet the needs of virtually any van customer, whether for personal or commercial use.

Chevy Express — With seating for as many as 15 people, Chevy Express is the ideal people mover and cargo hauler. It serves both commercial or personal applications that require "anything goes" versatility in a full-size van.

Chevy Van — Offering full-size van flexibility and rugged truck durability, Chevy Van provides exceptional comfort, impressive safety features, superior towing capabilities and is ideal for conversion upfitting or serious cargo-carrying applications thanks to as much as 316.8 cubic feet of cargo room.

Astro Van — Chevy Astro Van (passenger and cargo models) is a versatile workhorse, offering a combination of people-moving (as many as 8 passengers), cargo-carrying (as much as 170.4 cu. ft.) and trailering capabilities (as much as 5,500 lbs., when properly equipped).

Venture — Chevy Venture completes the Chevrolet family of vans, offering time-challenged customers optimum flexibility, comfort and convenience, while providing "space on demand," impressive ride and handling and the most standard power of any minivan in its class.

The Chevy family of vans includes Chevy Express (left), Chevy Van, Astro Van and Venture

SAFETY

With a long history of setting automotive safety milestones, GM is a world leader in automotive safety research, development and testing. The 1998 Astro exemplifies that dedication, providing an outstanding list of safety features. And, with a comprehensive system, emphasizing crash avoidance and occupant protection, Astro owners not only get a versatile van, but additional peace of mind, as well.

Crash Avoidance Features

- **Standard Daytime Running Lamps (DRL)** turn on automatically when the ignition is on to increase Astro visibility to other drivers. With DRL, the lamps run at a lower intensity than regular headlamps to reduce glare to oncoming drivers. The DRL system is overridden when the vehicle's headlamps are engaged.
- **4-wheel anti-lock brake system (ABS)**, standard on Astro, automatically adjusts brake pressure to the front and rear wheels during hard-braking situations, minimizing wheel lockup and helping maintain steering control. All the driver has to do is keep the brake pedal down.
- **Brake/transmission shift interlock**, a feature of the automatic transmission, requires drivers to depress the brake pedal to shift out of Park.
- **Rear-seat safety belt child comfort guides**, standard on every Astro model, adjust the angle of safety belt crossover, making safety belts more comfortable for children and smaller sized adults riding in the backseat.

Safety ... It's in the Bag

There's been a lot of discussion regarding air bag safety. To help Astro owners with air bag safety, Chevrolet developed these guidelines:

- **Infants in rear-facing child safety seats should never ride in the front seat of a vehicle with an activated passenger air bag.**
- **Small children should ride in a child safety seat located and properly secured in the center of the vehicle's rear seat. The child safety seat should meet federal requirements for the child's age and size. (Astro offers optional built-in dual child safety seats or second row split-bench or modular seats, which eliminate the need to carry individual child safety seats.)**
- **Children ages 12 and younger should ride buckled up in a rear seat**
- **Everyone should buckle both lap and shoulder safety belts on every trip**
- **Driver and front-passenger seats should be moved as far back as practical**
- **Never place an object in the air bag deployment zone.**

INTERIOR FEATURES (contd.)

- A standard ribbed load floor on Cargo Van models helps make sliding heavy cargo easy
- Tilt-Wheel™ Adjustable Steering Column, standard on LS and LT and optional with standard trim, tailors the wheel to the most comfortable, individualized steering position
- Rear compartment convenience net, standard on LS and LT and optional with standard trim, helps prevent groceries and other small cargo items from sliding around
- A Remote Keyless Entry system (included with LT models, optional with LS and Astro Cargo Van), transmits a uniquely coded high-frequency radio signal to activate power lock/unlock functions, as well as illuminated entry
- HomeLink 3-channel transmitter, included on all models with available roof console, memorizes the activation codes for as much as three remote-control devices (such as garage door, gate and security lights), reducing clutter in the vehicle.

Audio Systems

While it's impossible to forecast everyone's musical tastes, Astro offers a sound system with the technology and features designed to complement all varieties of music, from jazz to country and in-between. Uplevel cassette and compact disc player systems feature speed-compensated volume, which automatically compensates for road noise by adjusting the audio volume to the vehicle's speed, as well as automatic tone control, which sets equalizer levels with one touch for talk and a variety of music programs.

Center-row radio controls are available with the uplevel cassette and dual playback cassette/compact disc player systems. This handy feature, which includes dual audio controls and dual headphone jacks, allows center-row passengers to listen to a different

music source (radio and cassette tape or compact disc, depending on sound system selected) at a different volume than front-seat passengers.

Available Sound Systems Include:

- Electronically tuned AM/FM stereo with seek-scan, digital clock and six-speaker system is standard on all models
- Electronically tuned AM/FM stereo with cassette player, seek-scan and digital clock is available on all models
- Electronically tuned AM/FM stereo with cassette player, speed-compensated volume, automatic tone control, seek-scan, digital clock, TheftLock security feature and eight-speaker system is optional on all models*
- Electronically tuned AM/FM stereo with compact disc player, seek-scan, digital clock, automatic tone control, speed-compensated volume, TheftLock and eight-speaker system is optional on all models*
- Electronically tuned AM/FM stereo with cassette player, compact disc player, seek-scan, digital clock, automatic tone control, speed-compensated volume, TheftLock and eight-speaker system is optional on all models.*

*Cargo Van models offer four front-door speakers and rear speaker wiring.

Seats

Astro features a number of seating arrangements designed to accommodate as many as eight passengers, depending upon seating configuration and model chosen. Front passengers are protected by lap and shoulder safety belts and head restraints, while passengers in the intermediate and rear bench seats have lap safety belts for all passengers and shoulder safety belts and head restraints for the outboard seating positions.

Integrated child safety seats are available for the intermediate seat's two outboard positions (optional on LS).

All-Wheel Drive ... On A Van?

All-weather traction isn't the exclusive domain of 4x4 sport utilities and pickups. The available All-Wheel-Drive is just one of the factors that help make this midsize van so versatile.

Under normal road conditions, the All-Wheel-Drive Astro will operate in a rear-wheel-drive mode until the system senses rear-wheel slip, such as can be experienced in snow, ice or mud. Once rear-wheel slip is sensed, the system automatically transfers just the right amount of torque to the front wheels, giving the driver All-Wheel-Drive control when it's needed most.

Astro Drivers Aren't Left In The Dark

As the lights dim, owners have plenty of time to get buckled up, fish their keys from their briefcase or check their hair in the mirror. Astro offers theatre lighting — just another thoughtful feature from the engineers at GM.

Theatre lighting provides a gradual dimming of the van's interior lighting after any door is closed, so owners have about ten seconds to get settled and underway.

EXTERIOR FEATURES (contd.)

- All lower-body panels (except cladded models) receive a urethane anti-chip coating for added protection against stone damage and road debris, and hot wax is sprayed on the underbody.
- An aluminized stainless-steel muffler and tailpipe provide enhanced durability.

Other Features Include:

- Astro models with standard trim have a smooth front fascia and rear bumper, painted body-color
- Dramatic styling is provided by body-side cladding (standard on LS and LT; optional on Cargo Van models with YF7 Upfitter Package)
- Standard Solar-Ray tinted glass improves interior comfort and enhances protection against ultraviolet and infrared solar rays (deep tint on LS and LT models)
- The spare tire is mounted under the body to increase interior room and includes a winch-type carrier to help lower or raise the spare easily into its storage position.

Exterior Paint

Standard basecoat/clearcoat paint on Astro resists fading and provides a high-gloss shine for long-lasting exterior beauty.

- Astro now features etch-resistant clearcoat paint that helps reduce damage caused by water-spotting, acid rain and environmental etch. This clearcoat finish is used with all colors — solids and metallics.

Exterior Colors

New Paint Colors For '98:

- Medium Cadet Blue Metallic
- Dark Copper Metallic
- Dark Forest Green Metallic.

Other Colors:

- Light Autumnwood Metallic
- Ivory White
- Teal Blue Metallic
- Cherry Ice Metallic
- Dark Purple Metallic
- Silvermist Metallic
- Light Carmine Red Metallic.

DESIGN AND MANUFACTURING

Astro is manufactured at a General Motors assembly plant in Baltimore, Maryland. There, a precise combination of design technology, sophisticated assembly and statistical process control team up to assure Astro quality. Extensive use of robotics in welding, painting and other areas provide a high degree of production consistency. A computerized torque monitoring system, which verifies the correct tightening of critical nuts and bolts in the assembly process, is one of many advanced automated processes. These and other high-tech production methods translate into snug fits throughout the body, strong, seamless welds and a rich, superb-quality paint finish.

BODY STRUCTURE

- Astro has a **unibody (integral frame) structure** that incorporates a partial front ladder-type stub-frame with the floor panels, adding rigidity without excessive weight. This design maximizes strength and payload capacity.
- The underbody, right- and left-side panels, roof panel and front end are made from **single-piece stampings**, for increased structural rigidity.
- **Single-piece construction** of the front-door frames, window frames, side- and rear-door openings protects against corrosion by eliminating vulnerable seams.
- Some parts — such as the radiator coolant reservoir, the windshield washer reservoir and the fuel tank shield — are composed primarily of plastic resin and are labeled to facilitate recycling.

Not Enough Time On Your Hands?

Let Astro help give you some of your time back. The standard Vortec 4300 V6 SFI offers a variety of time-saving (and cost-reducing), extended maintenance features that make owning Astro easy.

- **Platinum-tip spark plugs** give Astro the ability to travel up to 100,000 miles before the first scheduled tune-up.*
- **Extended-life coolant** doesn't need to be changed up to 5 years or 150,000 miles, whichever comes first.*
- **There is no need to check engine timing.**
- **A single accessory drive belt** helps reduce replacement costs over traditional belt designs.

Other Astro "Easy-To-Own" Features Include:

- An **aluminized stainless-steel muffler and tailpipe** that provide long-lasting durability
- **Long-life automatic transmission fluid** will not need to be replaced for at least 100,000 miles under normal operating conditions*
- **Scotchgard™ Protector** that helps resist stains on cloth and carpeting to make cleanups quick and easy
- **Genuine Customer Care — Bumper to Bumper 3-year/36,000-mile limited warranty, 24-hour Roadside Assistance** and, at participating dealerships, **Courtesy Transportation.**

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

SEQUENTIAL FUEL INJECTION (SFI) (contd.)

- A mass airflow meter constantly measures the engine's air requirements under varying conditions, such as changes in load, altitude and temperature. In an SFI system, the mass airflow meter is essential for accurate fuel delivery.
- The injector nozzle's design and optimum location produce an effective spray pattern that contributes to the engine's smooth idle and impressive fuel efficiency.

TRANSMISSION

4L60-E 4-Speed Electronic Automatic Transmission

GM's 4L60-E 4-speed automatic Overdrive transmission is standard equipment on Astro. The 4L60-E's "intelligent" electronic controls allow the transmission to match the engine's performance, delivering outstanding fuel efficiency.

- New is a **two-piece transmission case** that reduces vibration and noise.
- A new, **electronically controlled torque converter clutch** helps improve operating efficiency and driveability.
- A **deeper transmission oil pan** improves overall transmission durability and fluid life.

- The 4L60-E's wide range of gear ratios enhances both performance and fuel economy. The 3.06:1 first-gear ratio provides high torque multiplication for initial acceleration. The Overdrive 0.70:1 fourth gear lowers engine rpm at highway speeds, providing enhanced fuel economy and minimizing wear.
- The 4L60-E features electronic controls designed to provide precision and flexibility. The **Powertrain Control Module (PCM)** measures key vehicle input, including throttle position, vehicle speed, gear range, temperature and engine load. Four solenoids that are connected to the PCM control shift points and shift smoothness.
- The PCM acts as an interface between the engine and transmission to provide the feel of a **virtually "seamless" powertrain**.
- **Shift timing** is controlled electronically by signals sent to the valve body's shift solenoids, which activate the shift valves and execute the gear changes.
- A **brake/transmission shift interlock** is standard on Astro. The interlock requires the driver to apply the brake pedal to shift out of Park.
- A **second-gear start feature** provides an extra measure of control in hazardous driving conditions. The driver can reduce torque to the drive wheels by moving the gear selector to the Drive 2 position, thereby increasing control during initial acceleration on slippery surfaces.
- **4L60-E is factory-filled with long-life automatic transmission fluid** will not need to be replaced for at least 100,000 miles under normal operating conditions*

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

ABS — Unlearning Old Habits

Buying a vehicle with anti-lock brakes may require drivers, unfamiliar with this feature, to "unlearn" past braking habits. Drivers, accustomed to traditional brake systems, have been taught to "pump" the brake pedal when braking hard on slippery surfaces to keep the car's wheels from locking up. With ABS, the system was designed to "pump" the brakes faster than is manually possible, automatically adjusting the brake pressure to the wheels independently to avoid wheel lockup. All the driver has to do is keep firm pressure on the brake pedal. To become familiar with the system, drivers should take the vehicle to an unoccupied parking lot (preferably one with slick pavement) and practice sudden hard-braking maneuvers to get a feel for the system.

WHEELS AND TIRES

- 15" standard steel, painted Argent with bright hubcap.

- (RPO PA6) 15" x 6.5" styled-steel, painted (standard with LS, optional with standard trim and on Cargo Van).

- (RPO PC2) 15" x 6.5" chrome-cladded styled-steel (optional on all models).

- (RPO PF3) 15" x 6.5" brushed aluminum (optional with standard trim, Cargo Van with YF7 Upfitter Package and LS, standard on LT).

GENUINE CUSTOMER CARE

Chevrolet owners are covered by Genuine Customer Care, a comprehensive owner protection plan that includes the following:

Bumper to Bumper Warranty

The GM 3-year/36,000-mile (whichever comes first), no-deductible, limited warranty covers repairs for all Chevrolet cars, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. Warranty features include air conditioning repair, tires, towing, no-cost warranty transfer and 6-year/100,000-mile (whichever comes first) sheet-metal rust-through protection. There also is emissions control system coverage, which varies by geographic location. The only item not covered by the warranty is normal maintenance.

Courtesy Transportation

Customers who purchase or lease a Chevy Astro are eligible for Courtesy Transportation (at no charge) when their vehicles are left at a participating dealership for repairs covered under the 3-year/36,000-mile Bumper to Bumper Limited Warranty. Courtesy Transportation, at participating dealers only, may include shuttle service, expense reimbursement, or, if the repairs require leaving the vehicle overnight, a vehicle rental. Owners should see their dealer for details.

24-Hour Roadside Assistance

Lost? We'll help you find your way. Locked out? We'll get you back in your Astro. Out of gas? We'll get you gas. Roadside Assistance is provided via a toll-free number 24 hours a day, 365 days a year. Roadside Assistance is offered in two levels of service, Basic Care and Courtesy Care.

Roadside Basic Care covers you as long as you own your Astro, and provides:

- Free towing for warranty repairs (to closest dealer)
- Over-the-phone basic technical advice
- Available dealer services at reasonable costs (i.e., wrecker services, locksmith/key service, glass repair, etc.).

Roadside Courtesy care is available to you for a period of three years or 36,000 miles (whichever comes first), and provides:

- Free towing (to closest dealer)
- Free locksmith/key service (when keys are lost on the road or locked inside)
- Free flat tire service, jump start, fuel delivery.

History

(By Model Year)

Introduced in 1985 as a "mid-size" alternative to minivans.

- 1986 — Throttle-body fuel injection on 4.3 Liter V6.
- 1987 — New Touring Package; serpentine belt engine accessory drive.
- 1988 — Anti-corrosion improvements.
- 1989 — Rear-wheel anti-lock brakes and electronic speedometer; Goodyear GT+4 tires available.
- 1990 — All-Wheel-Drive Passenger and Conversion Vans; extended wheelbase models debut; four-wheel anti-lock brakes; increased standard equipment for all trim levels.
- 1991 — 4.3-Liter V6 engine with EFI increased to 170 horsepower.
- 1992 — Enhanced 4.3 Liter Vortec V6 engine — optional on 2WD, standard on AWD; optional Dutch doors.
- 1993 — Electronically-controlled 4L60-E transmission introduced.
- 1994 — Side-door beams; driver air bag; CFC-free R-134a air conditioning refrigerant introduced.
- 1995 — New front-end appearance; standard enhanced Vortec 4.3L-V6 with CPI.
- 1996 — New interior; passenger-side air bag added; improved Vortec 4300 V6 engine.
- 1997 — Daytime Running Lamps (DRL); Electronic Variable Orifice (EVO) power steering.

MODEL SELECTION SUMMARY

Use the chart below to choose the model that fits your customer's needs. Please note that the Base Payloads shown reflect the maximum allowable weight of cargo that can be carried in a standard model, including occupants. (They are calculated by subtracting curb weight from GVWR.) To calculate payloads for models with optional equipment, please refer to the WEIGHTS section in the back of this book or consult your 1998 GM PROSPEC. Also, the Maximum Trailer Weights shown below are based on vehicles that are properly equipped. See your Chevrolet Truck Order Guide for specific details.

MODEL SELECTION SUMMARY

Use the chart below to choose the model that fits your customer's needs. Please note that the Base Payloads shown reflect the maximum allowable weight of cargo that can be carried in a standard model, including occupants. (They are calculated by subtracting curb weight from GVWR.) To calculate payloads for models with optional equipment, please refer to the WEIGHTS section in the back of this book or consult your 1998 GM PROSPEC. Also, the Maximum Trailer Weights shown below are based on vehicles that are properly equipped. See your Chevrolet Truck Order Guide for specific details.

Dealer Order Guide inserts are your first look at Chevy Truck Models for 1998. Overall improvements, changes and deletions are highlighted. Use these inserts to assist you in ordering your initial shipments. NOTE: This information is preliminary and is subject to change.

FOCUS: Astro LS Passenger Van with Available Rear Dutch Doors and PEG 1SG

FEATURE: Astro LT All-Wheel-Drive Passenger Van with Available Rear Dutch Doors and PEG 1SK

Astro Passenger Van at a glance

*Astro is ideal for recreationally active families. As the most versatile midsize van, Astro has the most seating, cargo capacity and towing ability.**

Astro now has a virtual "lock" on the midsize van market.

**Excludes other GM vehicles.*

Astro LS Passenger Van with Available Rear Dutch Doors and PEG 1SG *(image above, top)*

The Focus vehicle is the model chosen for its saleability. It is equipped with the product features that customers want most. Generally, it is the "volume" vehicle that comprises the majority of the build. You'll want to be sure you have several of these models in stock. NOTE: Model, PEG and optional equipment may vary in your locality. Use the Retail Sales Analysis (RSA) to verify or select your dealership's Focus vehicle

The Focus vehicle for 1998 is Astro LS Passenger Van with available rear Dutch doors. This durable midsize van offers some of the best passenger accommodations and trailering capabilities in its class.

P.D.S.E.I. helps explain 1998 models for this brand. Overall improvements, changes and deletions are highlighted. Please review the supplied information, keeping in mind that this material is provided to you before production start-up — and is liable to change.

P.D.S.E.I. (New-for-'98 features appear in color.)

P PERFORMANCE

• **AUTOMATIC TRANSMISSION ENHANCEMENTS** — feature an electronically controlled converter clutch for improved efficiency and a two-piece transmission case for increased stiffness, reduced noise and vibration. • **ALL-WHEEL-DRIVE MODELS** — offer enhanced traction and added security regardless of road conditions. • **STANDARD VORTEC 4300 V6 WITH SEQUENTIAL FUEL INJECTION (SFI)** — provides smooth, quiet performance and extended service intervals (190 hp @ 4400 rpm and 250 lb.-ft. of torque @ 2800 rpm). • **REAR-WHEEL DRIVE** — helps contribute to an impressive towing capacity up to 5,500 lbs. (when properly equipped).

D DURABILITY

• **100,000-MILE SPARK PLUGS** — for extended service intervals.* • **EXTENDED-LIFE COOLANT** — good for up to 5 years or 150,000 miles.* • **SERPENTINE BELT ACCESSORY DRIVE** — can last up to 100,000 miles. • **NO NEED TO CHECK ENGINE TIMING** — ever. • **BUMPER TO BUMPER LIMITED WARRANTY** — protection for 3 years or 36,000 miles, with no deductible.

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

S SAFETY

• **PassLock THEFT-DETERRENT SYSTEM** — disables vehicle from further starting attempts for ten minutes if an invalid key is used. • **AUTOMATIC DAYTIME RUNNING LAMPS** — make vehicle more visible during daylight hours. • **DRIVER AND FRONT-PASSENGER AIR BAGS** — help reduce the chance of injury to front-seat passengers in certain moderate to severe frontal collisions. Always wear safety belts, even with air bags. • **4-WHEEL ANTI-LOCK BRAKE SYSTEM (ABS)** — helps maintain steering control and minimizes wheel lockup on most slippery surfaces.

E EXTERIOR

• **ETCH-RESISTANT CLEARCOAT PAINT** — helps reduce damage caused by water-spotting, acid rain and environmental etch. • **THREE NEW BODY COLORS** — Medium Cadet Blue Metallic, Dark Copper Metallic and Dark Forest Green Metallic. • **TWO NEW EXTERIOR CLADDING COLORS** — Dark Forest Green Metallic and Dark Copper Metallic. • **STANDARD LOWER-BODY CLADDING (LS AND LT MODELS ONLY)** — adds a handsome styling touch. • **TWO-SIDE-GALVANIZED STEEL** — on all exterior body panels (except roof), it provides maximum corrosion protection.

I INTERIOR

• **SEATING FOR EIGHT** — standard with LS and LT trim levels, optional with Base trim level (which includes standard seating for five). • **SCOTCHGARD™ PROTECTOR** — helps resist stains on fabrics and makes cleanups quick and easy. • **UP TO 170.4 CU. FT. OF CARGO AREA** — with center- and rear-row seats removed. That's enough room to close the rear doors while carrying a 4' x 8' sheet of plywood.

Competitive Models

- Ford Windstar
- Mercury Villager
- VW Eurovan
- Mazda MPV
- Dodge Caravan/Plymouth Voyager
- Nissan Quest
- Toyota Previa.

New for 1998

- Transmission enhancements help bring new levels of quietness and efficiency to Astro Passenger Van for 1998. A stiffer, two-piece transmission case reduces vibration and noise, while a new, electronically controlled converter clutch helps improve operating efficiency and driveability. A deeper transmission oil pan improves overall transmission durability and fluid life.

Deletions

- Three exterior colors have been deleted for 1998: Medium Blue Metallic (#37), Emerald Green Metallic (#43) and Medium Lichen Green Metallic (#47), and have been replaced by three new colors: Medium Cadet Blue Metallic (#25), Dark Copper Metallic (#69) and Dark Forest Green Metallic (#57).
- Two exterior cladding colors have been deleted for 1998: Medium Blue Metallic (#37) and Cherry Ice Metallic (#59), and have been replaced by two new colors: Dark Forest Green Metallic (#57) and Dark Copper Metallic (#69).
- Two exterior stripe colors have been deleted for 1998: Medium Gold (55A) and Medium Gray (90A), and have been replaced by two new colors: Medium Golddust (53A) and Medium Agate (56A).
- One interior color has been deleted for 1998: Gray has been replaced by Medium Gray.

Other Information on Significant Features

- Chevy Astro Van now has a virtual "lock" on the midsize van market with the departure of Ford Aerostar.
- Chevy Astro Passenger Van is part of the most complete family of vans in the industry. The Chevy lineup consists of Full-Size Chevy Van and Chevy Express, midsize Astro Passenger Van, Astro Cargo Van, Chevy Venture and Chevy Venture Cargo.

Astro Cargo Van

Dealer Order Guide inserts are your first look at Chevy Truck models for 1998. Overall improvements, changes and deletions are highlighted. Use these inserts to assist you in ordering your initial shipments. NOTE: This information is preliminary and is subject to change.

Astro Cargo Van at a glance

Astro Cargo Van is the best selling van in its class — and small wonder. Compared to Dodge Caravan C/V, Astro offers a bigger V6, best-in-class cargo capacity, payload and towing capacity.*

Astro is part of one of the most complete family of vans in the industry. Included are Full-Size Chevy Van, Chevy Express, midsize Astro Passenger Van, Astro Cargo Van, Chevy Venture and Chevy Venture Cargo.

*Excludes other GM divisions.

The Focus vehicle is the model chosen for its sale-ability. It is equipped with the product features that customers want most. Generally, it is the "volume" vehicle that comprises the majority of the build. You'll want to be sure you have several of these models in stock. NOTE: Model, PEG and optional equipment may vary in your locality. Use the Retail Sales Analysis (RSA) to verify or select your dealership's Focus vehicle content.

The Feature vehicle is the "image" model Chevy Truck will profile most in its advertising. Generally, it does the best job of capturing attention and creating consumer awareness.

Astro Cargo Van with Rear-Wheel Drive (image, above)

The 1998 Focus/Feature vehicle is the Base Astro Cargo Van with rear-wheel drive. Ideal for commercial fleets, Astro also appeals to recreational buyers as an excellent conversion platform. This popular model offers plenty of load space and comfort, with performance for a variety of uses.

Ordering Recommendations:

The recommended Astro Cargo Van with rear-wheel-drive content, based on national sales volume, is listed below to assist your dealership in ordering. Major standard equipment includes:

- Air Conditioning
- Driver and Front-Passenger Air Bags
- 4-Wheel Anti-Lock Brake System (ABS)
- 2-Passenger Seating with High-Back Bucket Seats.

Some popular options include:

- Convenience Groups:
 - Power Windows, Power Door Locks
 - Tilt-Wheel™ Adjustable Steering Column and Electronic Speed Control with Resume Speed
- 15" Painted Styled-Steel Wheels.

Astro Cargo Van is Loaded with Service Advantages Fleets will Appreciate

Holding down service costs is a major concern for today's cost-conscious fleet operators. Astro Cargo Van abounds in easy-to-service features that can help fleet operators do just that. Included are:

- Bolt-on fenders for improved serviceability
- Quick-removal engine cover latches
- Engine removal from the front
- One-piece inner quarter panels help to protect outer panels from being damaged by shifting cargo.

Point out these cost-saving features to fleet operators — especially those who perform their own maintenance.

Trim Colors

P.D.S.E.I. helps explain 1998 models for this brand. Overall improvements, changes and deletions are highlighted. Please review the supplied information, keeping in mind that this material is provided to you before production start-up — and may change.

P.D.S.E.I. (New-for-'98 features appear in color.)

PERFORMANCE

• **AUTOMATIC TRANSMISSION ENHANCEMENTS** — feature an electronically controlled converter clutch for improved efficiency and a two-piece transmission case for increased stiffness, reduced noise and vibration, compared to last year's transmission. • **ALL-WHEEL-DRIVE MODEL** — offers enhanced traction and added security regardless of road conditions. • **STANDARD VORTEC 4300 V6 WITH SEQUENTIAL FUEL INJECTION (SFI)** — provides smooth, quiet performance and extended service intervals (190 hp @ 4400 rpm and 250 lb.-ft. of torque @ 2800 rpm). • **REAR-WHEEL DRIVE** — helps contribute to an impressive towing capacity of up to 5,500 lbs. (when properly equipped).

DURABILITY

• **100,000-MILE SPARK PLUGS** — can go up to 100,000 miles before replacement.* • **EXTENDED-LIFE COOLANT** — good for up to 5 years or 150,000 miles.* • **SERPENTINE BELT ACCESSORY DRIVE** — can last up to 100,000 miles.* • **NO NEED TO CHECK ENGINE TIMING** — ever. • **BUMPER TO BUMPER LIMITED WARRANTY** — protection for 3 years or 36,000 miles, with no deductible.

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

SAFETY

• **PassLock THEFT-DETERRENT SYSTEM** — disables vehicle from further starting attempts for ten minutes if an invalid key is used. • **AUTOMATIC DAYTIME RUNNING LAMPS** — make vehicle more visible during daylight hours. • **DRIVER AND FRONT-PASSENGER AIR BAGS** — help reduce the chance of injury to front-seat passengers in certain moderate to severe frontal collisions. Always wear safety belts, even with air bags. • **4-WHEEL ANTI-LOCK BRAKE SYSTEM (ABS)** — helps maintain steering control and minimizes wheel lockup on most slippery surfaces.

EXTERIOR

• **THREE NEW EXTERIOR COLORS** — Medium Cadet Blue Metallic, Dark Copper Metallic and Dark Forest Green Metallic. • **TWO NEW EXTERIOR CLADDING COLORS** — Dark Copper Metallic and Dark Forest Green Metallic. • **ETCH-RESISTANT CLEARCOAT PAINT** — helps reduce damage caused by water-spotting, acid rain and environmental etch. • **OPTIONAL LOWER-BODY CLADDING (YF7 UPFITTER PACKAGE ONLY)** — adds a handsome styling touch to upfitted Astro Cargo Vans. • **TWO-SIDE-GALVANIZED STEEL** — on all exterior body panels (except roof), it provides maximum protection against corrosion.

INTERIOR

• **UP TO 170.4 CU. FT. OF CARGO AREA** — that's enough room to close the rear doors while carrying a 4' x 8' sheet of plywood. • **HomeLink 3-CHANNEL TRANSMITTER (REQUIRES OPTIONAL ROOF CONSOLE AND YF7 UPFITTER PACKAGE)** — memorizes activation code for up to three remote control devices.

Competitive Models

- Dodge Ram Van
- Dodge Caravan C/V.

New for 1998

- Transmission enhancements help bring new levels of quietness and efficiency to Astro Cargo Van for 1998. A stiffer, two-piece transmission case reduces vibration and noise, while a new electronically controlled converter clutch helps improve operating efficiency and driveability. A deeper transmission oil pan improves overall transmission durability and fluid life.

Astro Cargo Van

Additional Information on Significant Features

- Chevy Astro Van boasts the Vortec 4300 V6 SFI engine for smooth idle and near-instantaneous hot starts. Strong torque, high power output and smooth operation make this engine an eager worker.
- Astro Van is part of the most complete family of vans in the industry. The Chevy lineup consists of Full-Size Chevy Van and Chevy Express, midsize Astro Passenger Van, Astro Cargo Van, Chevy Venture and Chevy Venture Cargo.

Deletions

- Three exterior colors have been deleted for 1998: Medium Blue Metallic (#37), Emerald Green Metallic (#43) and Medium Lichen Green Metallic (#47), and have been replaced by three new colors: Medium Cadet Blue Metallic (#25), Dark Copper Metallic (#69) and Dark Forest Green Metallic (#57).
- Two exterior cladding colors have been deleted for 1998: Medium Blue Metallic (#37) and Cherry Ice Metallic (#59), and have been replaced by two new colors: Dark Forest Green Metallic (#57) and Dark Copper Metallic (#69).
- One interior color has been deleted for 1998 — Gray has been replaced by Medium Gray.

NOTE: Exterior cladding is available on Astro Cargo Van models with YF7 Upfitter Package only.
